

Welcome to the Quick Start Guide for Typesy School version using Classlink. To access Typesy using your Classlink credentials, simply add Typesy as one of your applications and assign it to your roster.

**Step #1:** Open the Classlink Management Console.

**Step #2:** Click Applications then select Add in Assigned Apps.

**Step #3:** In the Add in Assigned Apps interface click App Library.

**Step #4:** Using the search bar enter Typesy and click add.

**Step #5:** Now back in and assign apps interface locate Typesy and click the assign button.

**Step #6:** In the assigned window click the add button for the desired profiles groups where users you want to have access to Typesy then close. The selected profiles groups or users will then have access to type in their own apps section and be able to log in directly using their class like credentials.
