TYPESEY MAKES IT EASY AND FLEXIBLE FOR CLASSROOMS FROM K-12!

A RICH EXPERIENCE

FOR BETTER LEARNING OUTCOMES

Typesy for Schools is built on the latest cloud app technologies. So there are no more slow-loading web pages, distracting ads, or confusing browser errors.

Typesy's unparalleled interactive learning platform works flawlessly on any computer or device.

CLASSROOM FLEXIBILITY

We designed Typesy to cater for a range of learning approaches and classrooms. Typesy can teach students "almost automatically" using just their spare time or can be made a part of the class plan and can even take center-stage in learning.

Whatever approach you choose, Typesy provides extensive class plans and teacher support.

TYPESEY WORKS WITH **YOUR** TECHNOLOGY

As the cutting edge premium program, Typesy is designed to work with all the technology at your school.

Quickly provision student accounts and organize them into classes by syncing with Google Classroom, Clever, Classlink, or Schoology.

You can import from csv or enter students in a flash, and we can even take care of the whole process for you.

A COMPLETE LIBRARY OF CURRICULUMS

FOR ALL GRADES

All students, no matter what their grade and level, can start with a tailored curriculum for their current level. For this reason, Typesy includes multiple curriculums to cater for all grade levels, from grade 2 to 12.

Typesy also provides detailed lesson plans and comprehensive teacher support.

EASY CONTROL, LIVE STATS AND POWERFUL REPORTS

Typesy gives teachers complete visibility and easy control. At a quick glance you can see how the class is doing, how each student is doing, and who needs help.

If you prefer to be hands on, you can drill down to see detailed reports for each student.

All data is updated "live" in front of your eyes as students login.

You will be able to test, grade, and assess in just a few clicks!

UNLIMITED PHONE SUPPORT

Your subscription comes with premium unlimited phone support for teachers and administrators. Whenever you need some help just give us a call.

CONCIERGE SERVICE

Your dedicated support rep will work with your IT people to set up Typesy. We do everything for you. Concierge service is free with your subscription.
